Financial coding: lots of questions coming in, prepping a consolidated list of IOs which will be ready tomorrow. Noting that employees being deployed should be following the joining instructions developed by National Div, including the clearly articulate financial information - not everyone is using the IOs as they should be, however. Not clear to the Divisions that they should use specific IO for seizing a truck, for instance. Have requested a copy of the joining instructions to understand where the issues are.						
Received request from Dept of Finance, looking for an update on costs associated with the ongoing activities. Have been tasked to prepare a briefing; reaching out to all SFOs to understand various contracts that have begun and start getting a sense of the scale. It will be very complicated to determine an accurate forecast due to multiple moving parts: mobilization, overtime, salaries, etc.

GOLD COMMAND	

Solicitor-Client Priv.

SILVER COMMAND	Gold (DCFP Mike Duheme)	Keith Finn	Direction received from the DCFP around noon that personnel are needed to deploy urgently; unless assigned to a high priority NS file, operations may need to be suspended in favour of deploying to Ottawa. Message was relayed to CROPS nationally, with a chaser message to come. All should bear in mind that other activities may need to be suspended to meet this resource requirement.	
			Met today to discuss how to track resources and Q&As, will be pulling resources together to send support to NHQ and National Div to manage this for mobilization.	
			Will put in place a standard process on Q&As as was done for the vaccine rollout, working with Mario Panizzon given his experience on that file; expecting to have this up and rolling in the coming days.	
Silver (C/Supt Michele Paradis)	Sean McGillis	Rich Baylin	Regarding the messaging on the Mission Statement for the GSB to capture the function of the group, please route any questions on this to the ROCC mailbox; message will be distributed more widely soon.	
			Mark Flynn has asked if there is an uptick in the number of trucks in the Embarras area, if this is a location that trucks may divert to over the weekend - if there is any related intel available, please send to the ROCC mailbox.
